## FIRE MARSHAL APPROVED USE OF FOYER SPACE

Please ensure your exhibit booth is placed against the wall and not blocking doorways or walkways. If you choose to bring your own backdrop, this must be placed directly against the wall, behind your table. Chairs must be directly next to your exhibit space. Please reference the example image!

Tables placed in front of the structure are not approved. If a table is needed, it must be set next to the display or against the wall. The below is not allowed. If client wants this type of set up, it must be placed into a meeting room.

Table top displays cannot be set directly on top of the 6 ft table in the Foyer area. However, you are free to set up literature on top of the 6 ft table.

Display table with literature is allowed. See photo!
