Education:

Bachelors of Science Aerospace Engineering Masters of Science Mechanical Engineering

Career:

United States Navy Medical Device Design and Manufacture Healthcare IT

IT Accolades:

10th Best Place to work in IT 2015 – Computerworld
2nd Best Place to work in IT 2016 – Computerworld
5th Best Place to work in IT 2017 & 2018 – Computerworld
10th Best Place to work in IT 2019 - Computerworld
Premier 100 Technology Leaders 2017 – Computerworld
Top 105 CIOs to watch in 2018/19 – Becker's Healthcare

About Halifax Health

Halifax Health Medical Center, Daytona Beach

- -Opened in 1928
- -600 beds
- -"100 beds in intensive units"
- –More than 500 physicians, representing54 subspecialties

Halifax Health - Medical Center of Port Orange

- -Opened in 2006
- -80-bed community hospital
- -20-bed emergency department
- -8-bed intensive care unit

Agenda

- Intra-operability
- Examples of Real Time Health System Components and Outcomes

In the beginning...

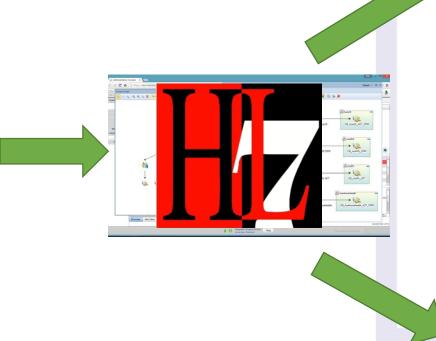

20 to 15 Years Ago...

Collection Date & Time	05/24/2011
	16:30
ALKALINE PHOSPHATASE	71
ALT/SGPT	32
ANION GAP	10
APPEARANCE, URINE	CLEAR
AST/SGOT	34
BASO #	0.0
BASO %	0.3
BILIRUBIN, URINE	NEGATIVE
BILIRUBIN,TOTAL	0.4
BLOOD UREA NITROGEN-VT	15
BLOOD, URINE	NEGATIVE
BUN/CREATININE RATIO	15.78
CALC OSMO	274
CALCIUM	9.3
CARBON DIOXIDE-VT	26
CHLORIDE-VT	105
CHOLESTEROL	226
CHOLESTEROL/HDLC RATIO	5
COLOR, URINE	YELLOW
CORRECTED CALCILIM	9.6

Real-Time Health System:

Intra-operability

Wearable Communication Devices

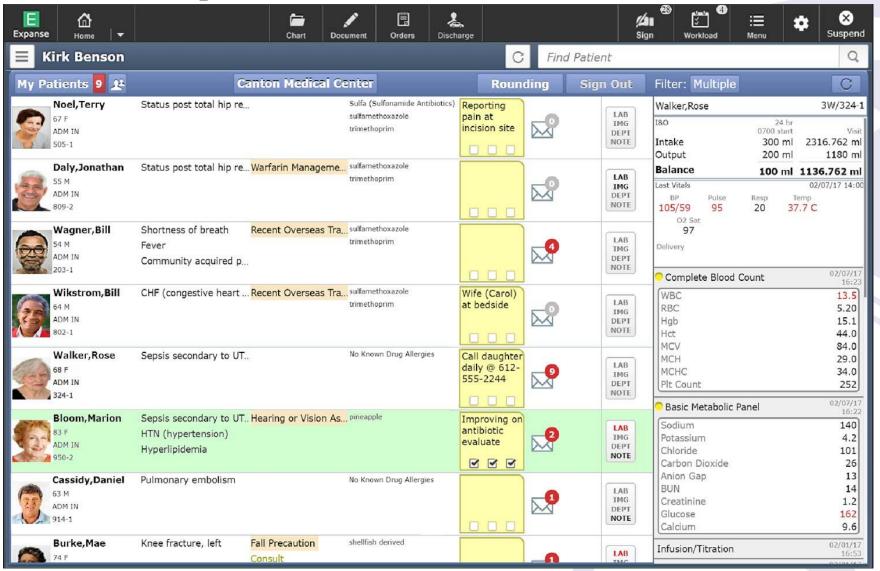

Predictive and Prescriptive ALERTS

Inform the Caregiver without harnessing them to a Computer

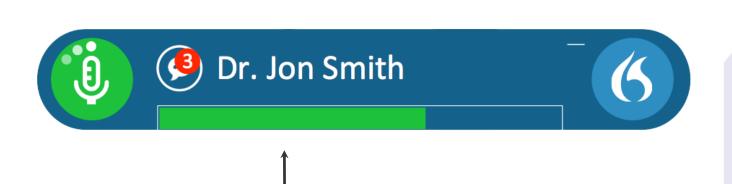

Facets of the RTHS

- EHR Mobility
- Al Powered Documentation Improvement
- Discharge Alerts
- Sepsis Alerting

EHR Mobility

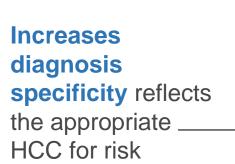

AI Powered Documentation Improvement

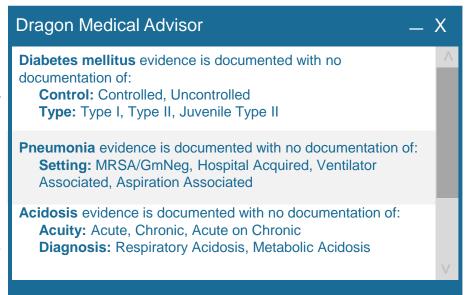

Real-time counter unobtrusively displays amount of available advice before advice window is opened as the provider is documenting in Meditech.

AI Powered Documentation Improvement

Reduces postdischarge and out-of-context queries from CDI and coding teams.

adjustment.

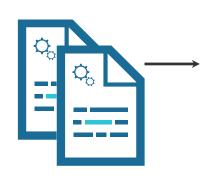

🔑 Dr. Jon Smith

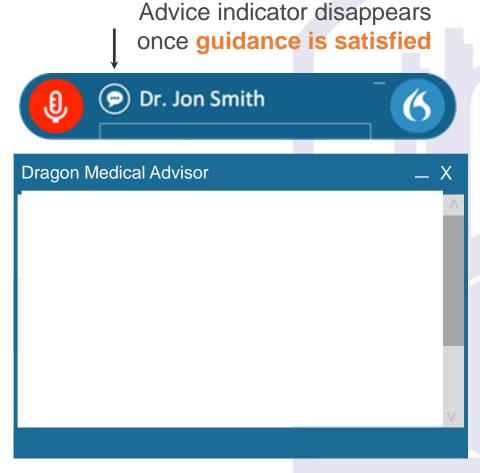

Accelerates hospital billing for inpatient and reduces denials across settings—advises on most common diagnoses impacting DNFB.

opportunities and prioritizes potential PSIs and HACs so physicians can take immediate action.

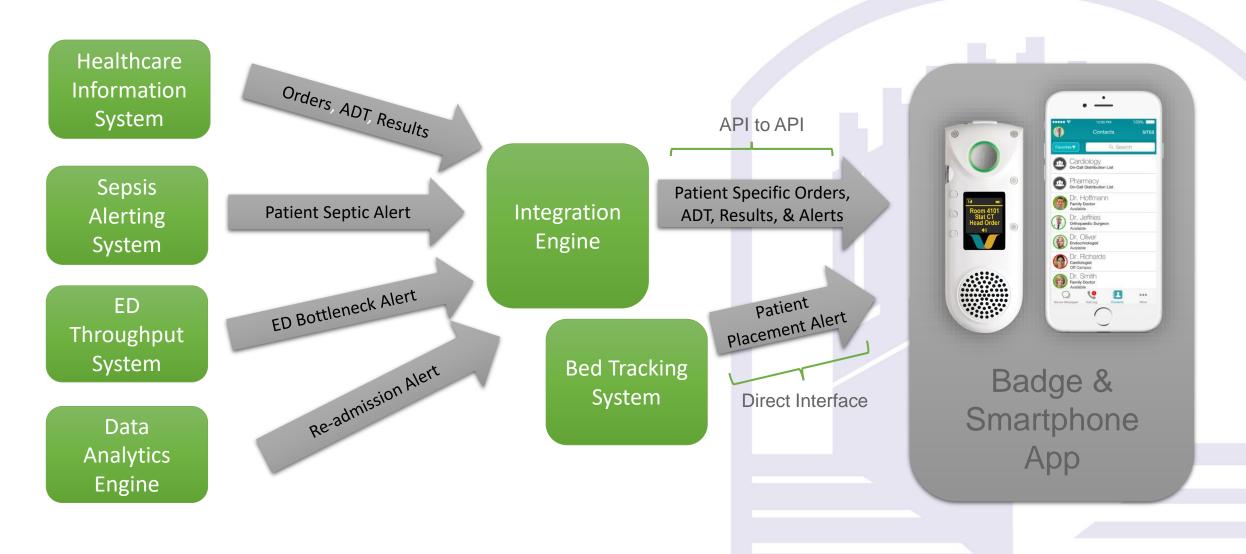

AI Powered Documentation Improvement

Real-time autoprocessing of
any note—
dictated,
transcribed,
typed— advice
is resolved as
documentation
is updated.

Intra-Operability for the RTHS
