What do recent developments related to repeal/replace of the ACA mean for healthcare providers?  
What is on the horizon?

What is the best opportunity you see today for health systems?

Where are you seeing opportunities for cost reduction and performance improvement?

How can providers balance delivery of quality care and patient satisfaction in an environment of urgent cost reduction?

What effective solutions are healthcare organizations enacting to bolster physician engagement? What do you recommend/not recommend?

In terms of what health systems can do in the next 6 months to reinforce their revenue cycles and safeguard collections, what are 2-3 specific actions you recommend?

How can healthcare leaders boost morale and instill a sense of community within their organizations during a time of tremendous uncertainty and political polarization?

Are you optimistic about this year for healthcare providers? The next few years?
